

## List of Australian Refined Diagnosis Related Groups Version 5.1

Written by Dr. Hazem El-Oraby  
Tuesday, 13 May 2008 01:36 -

---

AR-DRG version 5.1 was released in October 2004. It is a minor update to the classification and incorporates ICD-10-AM Fourth Edition codes. The ADRG and DRG structure is unchanged from version 5.0. The latest available morbidity and patient-level cost data were used to test recommendations for the development of AR-DRG Version 5.1.

All recommendations were initially tested using morbidity and patient level cost data collected for the 2000/01 financial year. Morbidity data for financial years 2001/02 and 2002/03 morbidity data later became available, and some recommendations were tested using these data.

Data for the financial years 2000/01 and 2001/02, which were coded using ICD-10-AM Second Edition codes, were mapped to ICD-10-AM Third Edition codes and grouped to AR-DRG Version 5.0 to test recommendations for the development of Version 5.1. Data for financial year 2002/03 were coded using the ICD-10-AM Third Edition codes and grouped to AR-DRG Version 5.0 without mapping.

When AR-DRG Version 5.1 was finalised, it was tested using data which was forward mapped to ICD-10-AM Fourth Edition codes.

## List of Australian Refined Diagnosis Related Groups Version 5.1

Specialty	DRG	Part	Description
<b>Pre-MDC</b>			
General Surgery	A01Z	S	Liver Transplant
Cardiothoracic	A03Z	S	Lung or Heart/Lung
