---

A sub module is needed to help the Hospital schedule House Keeping activities and follow up on incurred cost and progress of work.

The following has been extracted from a recent RFP. I've included it here for your reference. It may prove useful for anyone preparing such a document.

Please feel free to comment on this list, and propose any items that you think should have been included in this list.

House Keeping and Laundry	
Description	A sub module is needed to help the Hospital schedule House Keeping activities and follow up on incurred cost and progress of work
General	
1	Provide facility to schedule and track house keeping and laundry
2	Account for Laundry inventory and sub-inventories
3	Interface with Inpatient modules for scheduling various housekeeping tasks
4	Facility to provide online notification of all transfers and discharges to enable housekeeping to prepare the bed
